

Medium Advanced (step 2)

The medium advanced course comprises of three parts covering a period of 12 months and is intended for you who already have the basic medium education, but feel you need to further develop your skills working with clients and in public situations.

To be qualified to apply to this education you must have done the basic education in mediumship (Step 1), Intuition, Mental Mediumship and Spiritual Healing with Terry Evans and you need to have at least one year of experience working as a medium.

The basic themes for the course are for the students to learn to have a better contact with their teams/guides. The emphasis will also be on how the message received from the spirit contact is delivered to the recipient, and on giving clean and neutral proof on survival after death. So for example, past life experiences or contacts with guides will not be considered as proof.

We will be working on developing better techniques when working with a clairvoyant demonstration or as a medium in any public situation. In between course parts you will be working with clairvoyant demonstrations independently. In between course parts you will also continue working with private readings following certain guidelines.

Further emphasis will also be given to how neutral you are when working with the contact, and learning to recognise when you have crossed a line and become emotionally involved with the clients own dynamic.

Every course part normally starts in the evening at 6.00 pm day 1 and finishes at lunch time day 4.

We ask applicants to please send in a brief summary on training and background. We accept applications sent in through [e-mail](mailto:info@creativexperiences.com).

Course fee: SEK 6 400,00 per course part, including VAT.
Full board and sleeping accommodation in 2-4 bedded rooms included.

** We make reservation for possible price changes.*

NB! Do not pay for a course before having received confirmation from Creative Experiences.
